SEAFORD FOOTBALL NETBALL CLUB ALCOHOL & DRUG POLICY

The Seaford Football Netball Club is committed to excellence on and off the field in the health and wellbeing of all members. (players, officials and supporters) The use of alcohol and other drugs is a major issue in society today. The club will endeavor to have a responsible serving of alcohol and no tolerance use of illicit drugs to ensure a family inclusive culture is set at the club.

This policy covers the personal use of alcohol and illicit drugs, generally for recreational and social purposes. It is acknowledged by the club committee that members have prescribed drugs as part of a personal health plan. Any prescribed drug must only be taken by the person that has been prescribed the drug. It will deem a breach of this policy should this be found otherwise.

There will be zero tolerance should any player arrive to training or playing a match under the influence of alcohol or illicit drugs.

Alcohol

Underage members will not be permitted to purchase or to consume alcohol under any circumstances while at the club. Any person 18 or older buying alcohol for any underage members while at the club premises will be breach of this policy and face appropriate disciplinary action. Players are not permitted to consume alcohol during a game or practice session under any circumstances.

The club does not condone driving under the influence at any time and all members are expected to maintain a lawful approach to the consumption of alcohol with respect of driving.

Illicit Drugs

No member shall be allowed to use, promote, or sell any illicit drugs when on club premises, visiting opposition venues, attending any social event or gathering, or any other sanctioned club event.

Any breach of the Seaford Football Netball Club Alcohol and Drug policy will be advised to the club President and then brought to attention to the club executive to investigate. If there is a breach, the member will face a disciplinary panel, to explain their behavior. The panel may resolve the case by issue a written warning, suspend or expel the member of the club that is found to have breached this policy. The club committee may also advise any relevant authority as deemed appropriate.
